SUMMARY

BCA student and Unity game developer with hands-on experience building and testing 2D and 3D mobile games using C#. Strong understanding of gameplay mechanics, physics systems, UI, and player interaction. Experienced in identifying bugs, testing gameplay behavior, and improving user experience. Passionate about games and seeking a Game Tester role to contribute to high-quality game development.

EDUCATION

Bachelor of Computer Application (BCA)-SNES College of Arts, Management and Commerce, Calicut University (2024 – 2028)

Academic Performance: Semester 1 SGPA: 9.4 | Semester 2 SGPA: 9.1 | Semester 3 SGPA: 9.5

TECHNICAL SKILLS

Experienced in Unity (2D & 3D) and Godot (2D - basic) for mobile game development. Proficient in C#, GDScript, Python(basic), C/C++(academics). Skilled in player movement, animation, UI systems, touch input, physics collision handling, and using Git/GitHub for version control

GAME PROJECTS (Gameplay and videos available in Drive portfolio)

FunByte (Unity, 2D | C#) – Published on Google Play Store
Developed and published a collection of 2D mini-games for Android, implementing gameplay mechanics, physics systems, UI, score tracking, mobile controls, and performance optimization. Managed the complete development cycle from design and programming to testing and Play Store release.

AI & DEEP LEARNING PROJECT

Completed a project (Sign Language Translator) under ICFOSS focusing on applied deep learning concepts. Project visuals and demo included in portfolio

CERTIFICATION & ACHIEVEMENTS

- Certificate of Appreciation – ICFOSS (Deep Learning Project)
- 1st Prize Coding Competition – Don Bosco College, Calicut
- 1st Prize Debugging in python – JDT Islam College of arts and science
- 2nd Prize Coding Competition – Holy Cross Institute of Management and Technology
- 2nd prize IT competition – St Xaviers Arts and Science College Calicut
